24/7

REMOTE SITE SECURITY

THE MOST INTELLIGENT SITE SECURITY SYSTEM ON THE MARKET

Focus on solutions involving no more false alarms, only actionable threats.

Cameras On Site automatically analyses footage and ignores 'false positive alarms' like cats or dogs. If a threat is identified, the footage is uploaded to the cloud and presented to our control room operators monitor. The operator will then contact and dispatch police for urgent response and potential apprehension.

ALL OUR CAMERAS REPORT BACK TO OUR CONTROL ROOM WITH VIDEO VERIFIED EVENTS, AND LIVE 24/7 MONITORING

HOW IT WORKS

- Camera detects events via CCTV analytics.
- Onboard AI determines if it is a vehicle or human.
- Onboard flood light & siren is activated.
- Uploads footage to cloud for further analysis.
- Our 24/7 Security control room instantly reviews the footage.
- Situation escalated to police followed by site contact.

SOLAR - POWERED

NO NEED FOR SITE POWER

**A RELIABLE, ENERGY
EFFICIENT SOLUTION.**

Our efficient solar-powered site security solutions are built to withstand the harsh Australian climate, ensuring reliable and durable performance year-round with reduced interruptions.

EVERY MINUTE COUNTS

10 MIN AVG. POLICE RESPONSE TIME*

**ENSURE YOUR ACTIVE
THREAT IS ESCALATED.**

We work closely with the Police to notify and dispatch on active threats we find at your site. No more false alarms! Our operators are continuously monitoring your cameras so you are armed 24/7.

*Based on the previous reported events over the past 6 months as at the date of this publication.

TEAM MONITORING INCREASE PRODUCTIVITY

MONITOR STAFF EFFICIENCY ON YOUR SITE.

Our cameras can also be used to monitor and increase staff productivity on your job sites so you can stay informed with a project's overall progress and speed.

ONLY ACTIVE THREATS NOMORE FALSEALARMS

NO FALSE ALARMS, JUST RESULTS.

We use the latest AI technology to process thousands of videos and images in an instant to determine what our cameras have spotted and what action to take -whether to ignore or to take action.

SAVE MONEY ON SECURITY

AFFORDABLE SECURITY THAT PROTECTS YOUR ASSETS WHILE SAVING YOU MONEY

REDUCE THEFT

Millions of dollars are lost on building sites through theft and vandalism. Thieves are resourceful and anything on a building site is vulnerable, e.g. tools, materials, timber and especially white goods/ appliances.

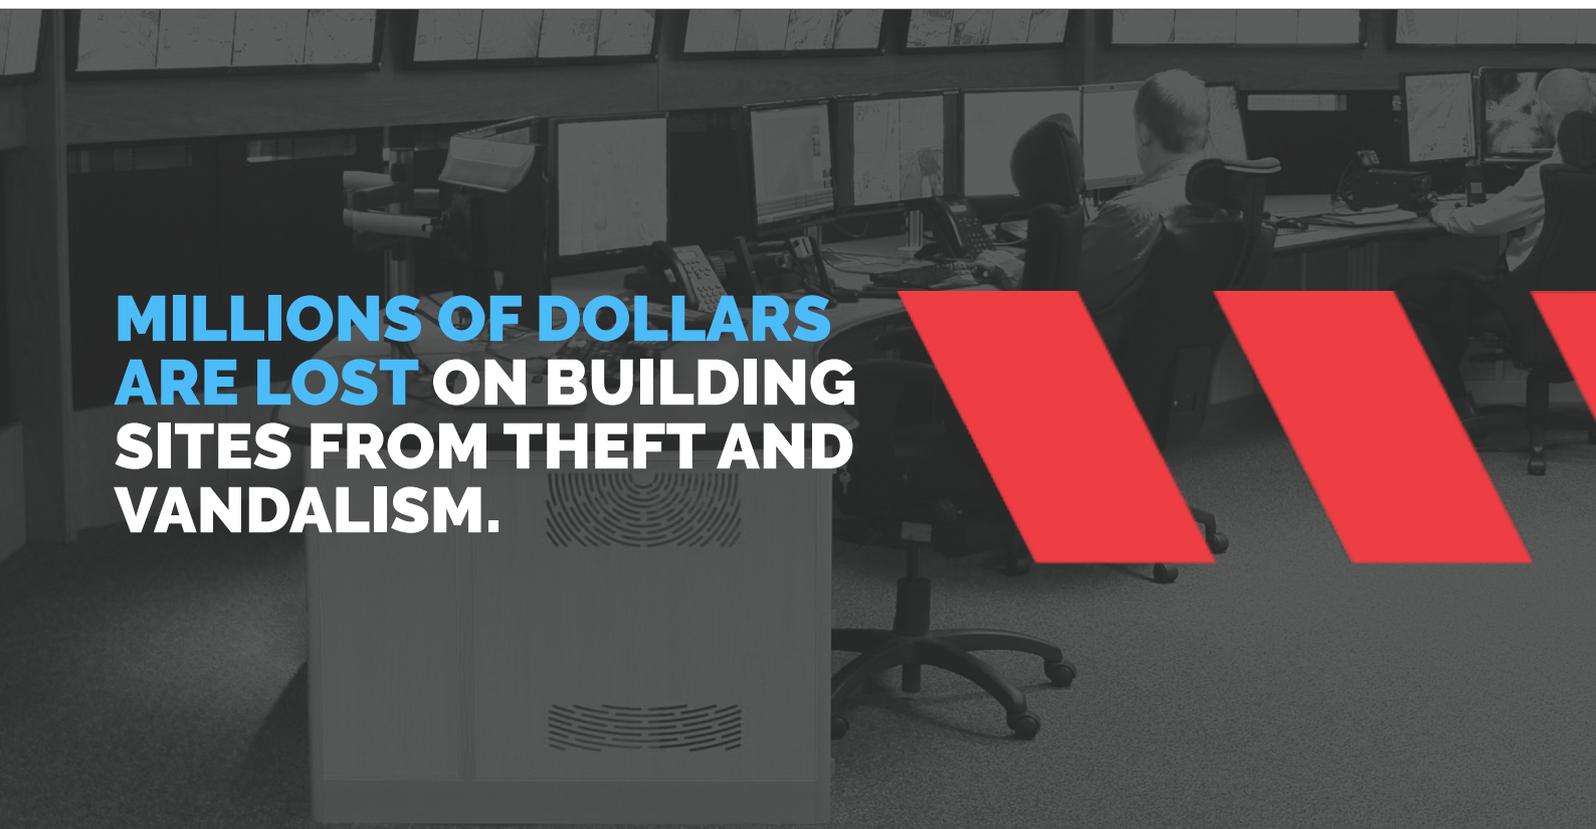

PREVENT DUMPING

The problem of illegal dumping continues to challenge Australian councils. We can reduce opportunistic dumping and hold waste transporters to account with video verification events and 24/7 recording.

OFF-GRID SITES

Cameras On Site provides a cost-effective security solution that can be deployed even in remote locations without continual mains power, and by using inbuilt batteries and solar power generation.

**MILLIONS OF DOLLARS
ARE LOST ON BUILDING
SITES FROM THEFT AND
VANDALISM.**
